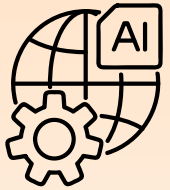
Agenda

- Technology’s Scope
- Common Activities
- The Make IT Model – Journey Overview
- Why SORINT.lab
- Service’s Delivery Model

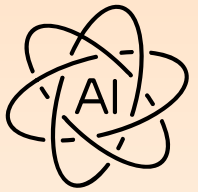
Red Hat Technology

Premier Solution Partner

Supporting clients throughout the entire lifecycle — from investigation and enhancement, solution selection, and engineering, to implementation, optimization, and comprehensive 24×7×365 operation. Our areas of expertise include:



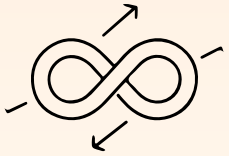
Core IS & AI Enablement



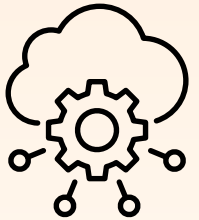
AI Solutions

Cloud Virtualization Solutions

Hybrid Cloud & Kubernetes Orchestration



Data & DevOps Integration



Infrastructure Management & Automation

Red Hat - Common Activities - 3/6

Core OS & AI Enablement Platforms

1

1- Enterprise Linux - (RHEL)
Specialized version supporting AI/ML workloads, including foundation model platforms for enterprise AI applications

2- Enterprise Linux AI - (RHEL AI)
Enterprise-grade Linux distribution offering stability, security, and compatibility

AI Solutions

2

1- OpenShift AI
Enterprise AI/ML development, automation & deployment at scale platform

2- Enterprise Linux AI - (RHEL AI)
Enterprise-grade Linux distribution offering stability, security, and compatibility

3- Ansible Lightspeed
AI-powered automation code generation

Cloud & Virtualization Solutions

3

1- OpenStack Platform
Infrastructure-as-a-Service (IaaS) for building private and public clouds

2- OpenShift Virtualization
Runs and manages traditional virtual machine (VM) workloads within OpenShift

Red Hat - Common Activities - 6/6

Hybrid Cloud & Kubernetes Orchestration 4

1- OpenShift
Kubernetes-based hybrid cloud platform for containerized applications

2- Advanced Cluster Management & Security for Kubernetes
Unified multi-cluster management, security, and policy enforcement

Security and compliance solutions for Kubernetes workloads

Data, and DevOps Integration 5

1- OpenShift Data Foundation
Software-defined storage for containerized environments

2- OpenShift GitOps
Git-based infrastructure and application configuration management. Enhance DevOps efficiency with Git-based automation

3- Quay
Secure, distributed container image registry for managing software deployments

Infrastructure Management & Automation 6

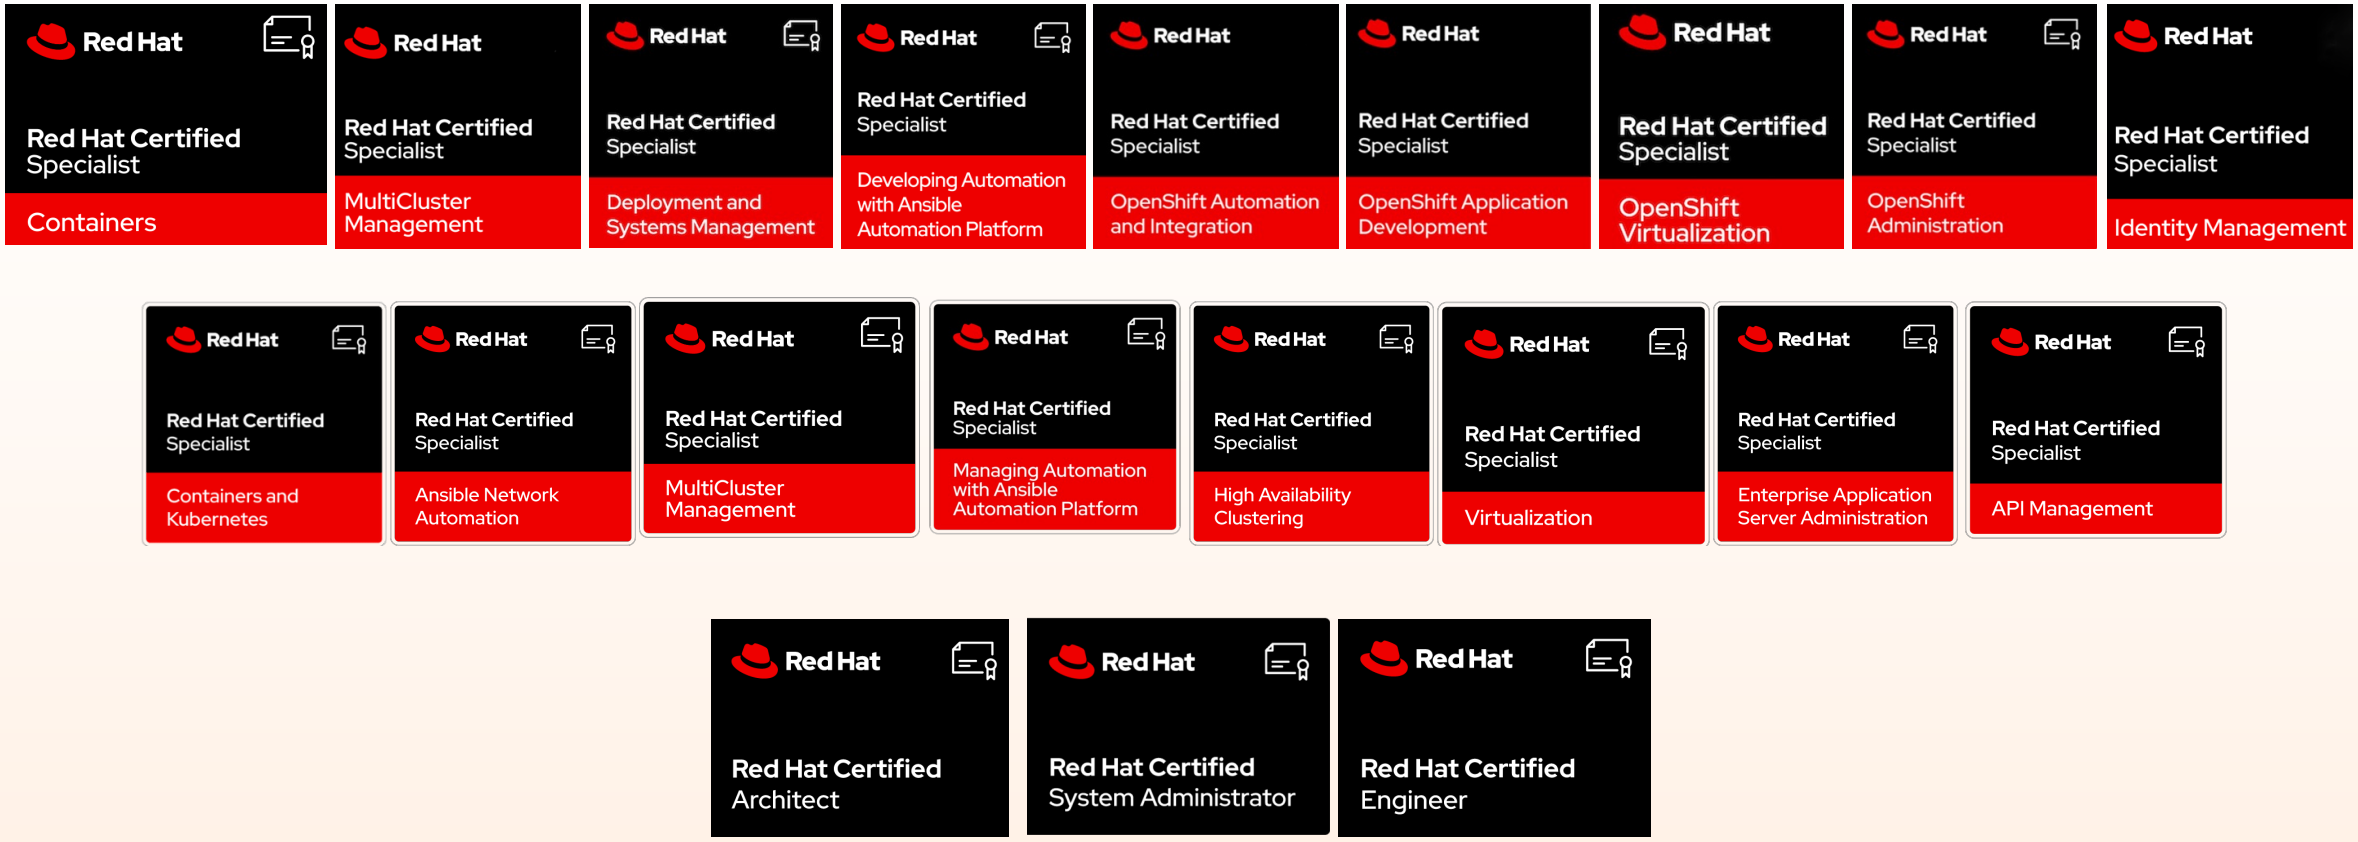
1- Satellite
Centralized management, provisioning, security, and compliance solution

2 Ansible & Red Hat Ansible Automation Platform
IT automation and orchestration tools for streamlining deployments, security, and cloud management

3 -Ansible Lightspeed
AI-powered automation code generation

SORINT.lab

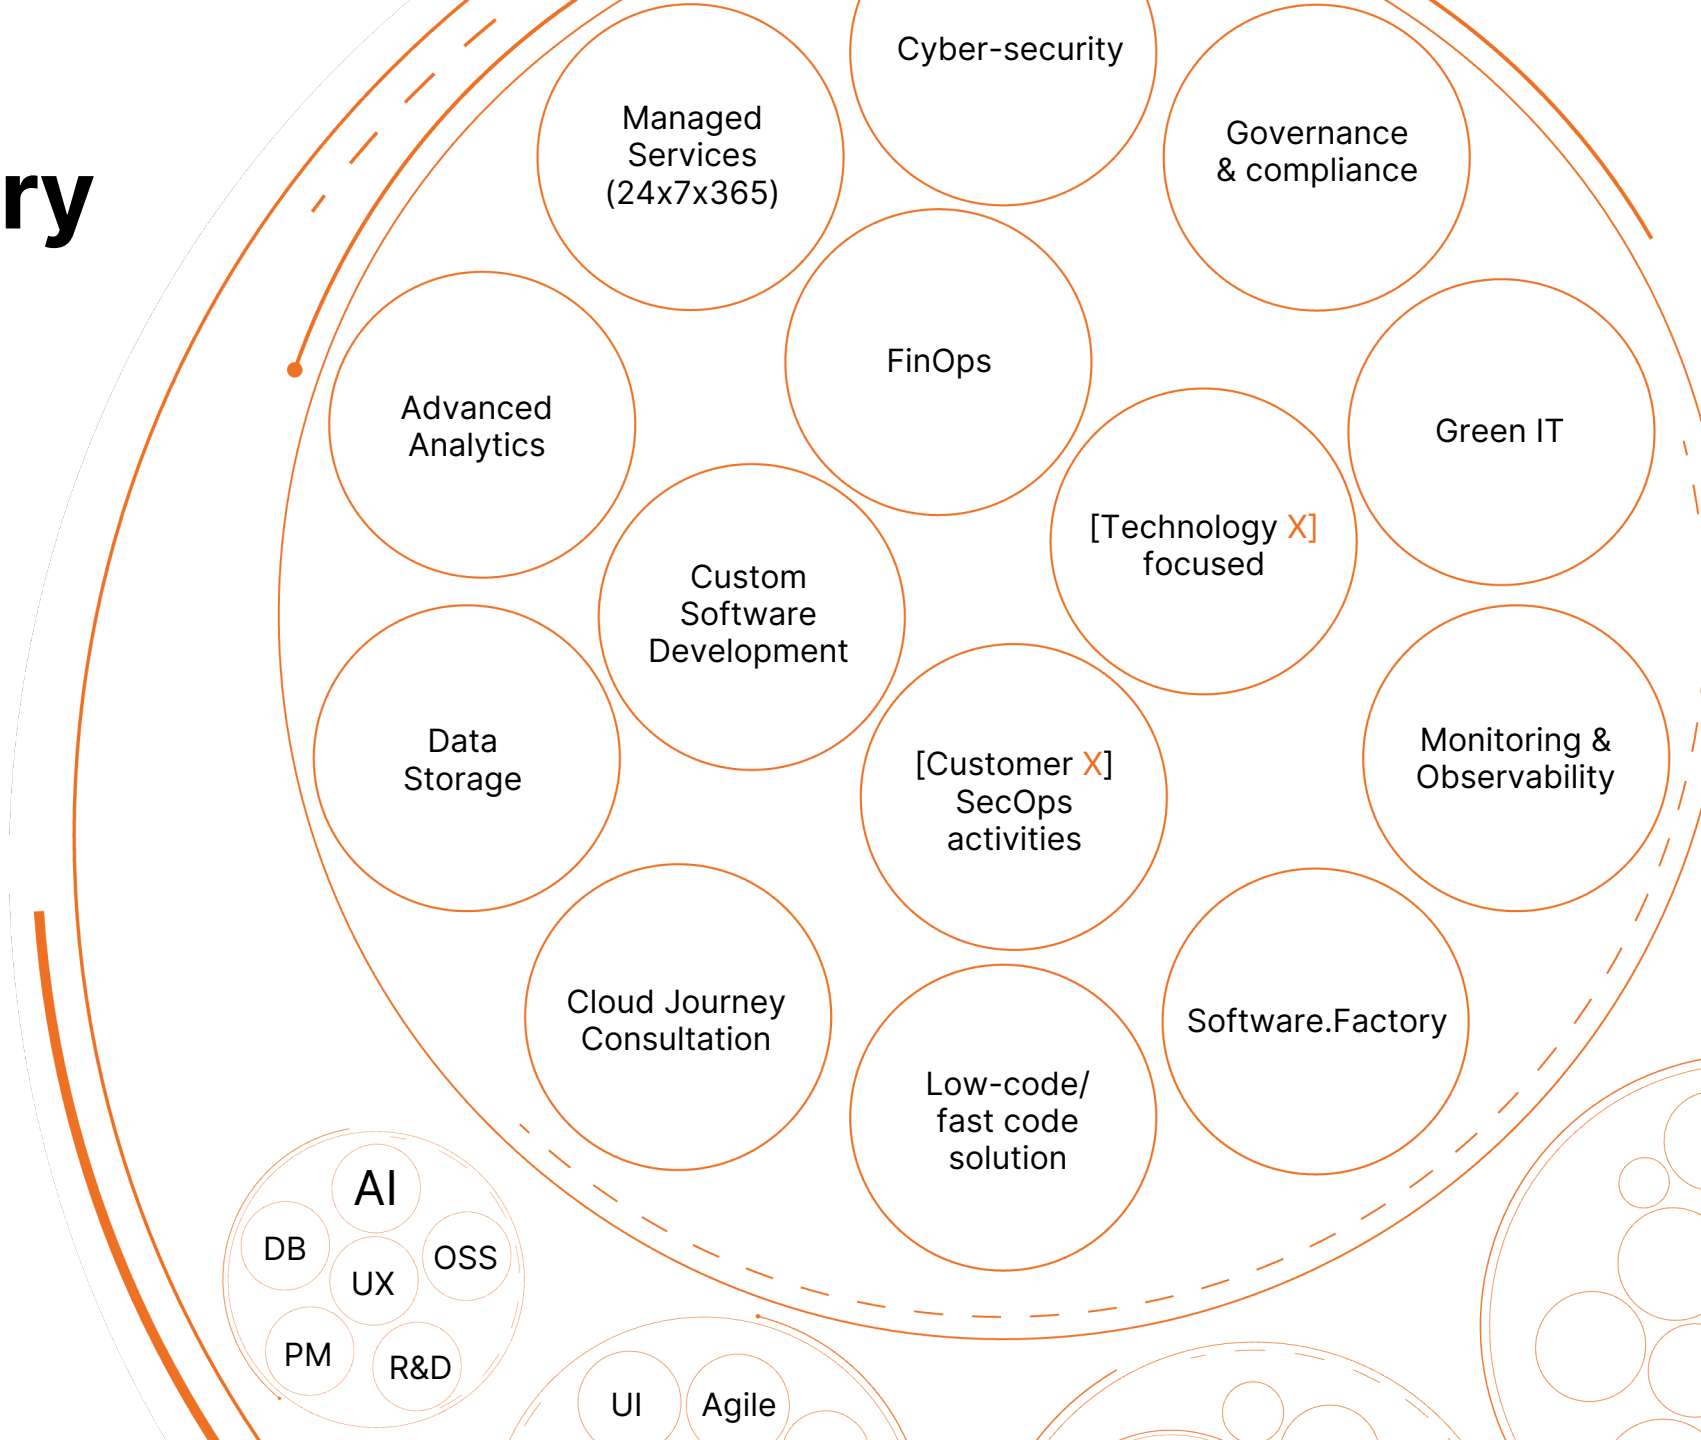
Diversified & Comprehensive - Certificates



A Multidisciplinary Enrichment

sircles

A framework which allows effective collaboration across specializations, maximizing value by involving experts from every field. Smoothly!



The Make IT Model

Overview on the journey

Discovery & Strategy
Defining objectives, activities, solution choice & project governance approach.

Complying with industry regulation

Planning & Method
Roadmap delivery, verification, means of communication, specializations involved, necessary alignments, & attributes of QA are some deliverables of this phase

Implement
Execution activities

Post & pre-project documentation

Testing & Post Support
Validation & verification of all performed activities

Manage & Operate
24x7x365 dynamically tailored operating model defined & regulated through SLA

Day x — Continues support — **Multi-disciplinary pool of expertise** — Continues support — **SORINT.lab operational capabilities** — Continues support — **Quality Assurance team & SLA compliance** — Day y

98%

Customer Retention Rate

Why SORINT.lab

Experience

Managing IT Projects

40 years working with prominent brands in Europe, US, and Africa

Strategical & Practical Driven-experience

PMs with Technical Background

Assessment Portals for a Jumpstart!

130+ entity Certification & Training

Top-tier in all relevant fields & domains.
Certified “Training Partner” to key vendors

Tackling challenges with SORINT.lab

100% Vendor Independent – Purpose

Believe in technology that fosters innovation and human wellness. Our commitment towards every company, institution or community is to help them run their business and solve their problems through a choice of the best technology.

End-to-end Technology Support

Holistic IT & governance capabilities, rather than a point solution

SORINT.lab

Offering's Delivery Models

Consultation
Discovery phase, architecting solutions, tech selection, optimization, educational initiatives

Staff Augmentation
Join client's team

Project-based
Addressing client's specific requirements. Up to 24x7 management & operation

Request Case Studies

We are all ears!
A discovery call with a technical engineer, or a business representative.
